THE HOUSE

Silver & Elegant

Silver & Elegant is an independent jewellery house based in London. Each piece is designed as a future heirloom, meant to be worn for decades and passed on rather than replaced. Every design is hand-finished by a single master artisan within a historic atelier in Istanbul, using traditional techniques in silver, bronze and gold.

01 · FUTURE HEIRLOOMS COLLECTION

The Crocodile Earrings

Cast in gold and hand-finished within a historic Istanbul atelier, these earrings take their form from the crocodile. Every scale and ridge is shaped by hand, giving each pair its own quiet irregularity. Part of the Future Heirlooms collection, built to remain rather than expire with a season.

02 · FUTURE HEIRLOOMS COLLECTION

The Emerald Crocodile Earring

A gemstone variation on the house crocodile motif, set with a line of green stones along its back. Cast in gold and hand-finished by a single artisan in Istanbul. A sculptural piece meant to sit close to the ear and catch the light with movement.

03 · FUTURE HEIRLOOMS COLLECTION

The Horse Earrings

A gold horse head earring finished with turquoise detailing and a fine fringe of chain. The relief is shaped and finished by hand in the house's Istanbul atelier. A statement piece built around movement, drawing on the horse as a symbol of endurance and grace.

04 · FUTURE HEIRLOOMS COLLECTION

The Two-Tone Scarab Earring

Cast in gold with a fine granulated texture and set with red accent stones, this earring draws on the scarab as a motif of protection and renewal. Hand-finished in Istanbul, it pairs sculptural weight with a design meant to be worn for years.

05 · FUTURE HEIRLOOMS COLLECTION

The Beetle Pearl Brooch

A beetle-form brooch set with a pearl body and finished with a single baroque pearl drop. Cast in bronze and hand-finished in gold within the house's Istanbul atelier. Designed to be pinned to a lapel and carried across seasons, not just one occasion.

06 · FUTURE HEIRLOOMS COLLECTION

The Sculpted Portrait Cuff

Cast in silver, this cuff carries a sculpted portrait relief worked entirely by hand within a historic Istanbul atelier. The raised face and hand give the piece its own texture and depth, so no two cuffs read quite the same. A sculptural piece built to be worn as wearable art.

07 · FUTURE HEIRLOOMS COLLECTION

The Geometric Studs

A cluster of gold and crystal baguettes set closely together to form a faceted dome. Hand-finished in the house's Istanbul atelier, the stud is designed for everyday wear, adding structure and shine without excess.

08 · FUTURE HEIRLOOMS COLLECTION

The Sapphire Cabochon Drop Earring

A gold drop earring set with two rounded cabochon stones in a deep blue. Cast and hand-finished within the house's Istanbul atelier, it is designed as a quiet, wearable statement, sitting close to the jaw without excess movement.

09 · FUTURE HEIRLOOMS COLLECTION

The Octopus Pearl Earring

A gold octopus earring set with a single pearl, its arms curling around the base of the ear. Hand-finished in the house's Istanbul atelier, it takes its form from the sea, balancing organic movement with the stillness of the pearl at its centre.

10 · FUTURE HEIRLOOMS COLLECTION

The Pearl Drop Pendant

A genuine cultured pearl set on a fine silver chain, finished by hand within the house's Istanbul atelier. Pared back and quiet, the pendant is designed to be worn daily, a piece meant to outlast trends rather than follow them.

Designed to be inherited, not replaced.
