

ISABEL & MANN'S

LONDON

URBAN PARADISE

The Urban Paradise Collection is inspired by the electric colours and energy of Miami that Isabel felt when visiting the city. The beach vibes and relaxed atmosphere of this city influenced the process of how Isabel painted her new original prints. The loose brush strokes with pops of neon resemble the free-spirited attitude that the people of Miami have.

The colour palette and modern architecture of the Design District and Wynwood became an important part of Isabel's inspiration as well as seeing how people confidently express their creativity through clothing.

Vivid colours and relaxed floaty garments that can be styled casually for the day or dressed up for the evening are prevalent in Miami and Isabel chose them as key features of the Urban Paradise Collection.
