

## FOR IMMEDIATE RELEASE

[MOLINI LONDON](#) UNVEILS “**LA SETA BAROQUE**” – A LUXURIOUS SILK COLLECTION  
INSPIRED BY THE SPLENDOUR OF THE BAROQUE AND THE SILK ROAD ERA

**London Fashion Week**, #SS26, UK – 19/09/2025 – MOLINI LONDON, the British luxury silk brand renowned for its artisanal craftsmanship and contemporary elegance, proudly presents its third collection: ***La Seta Baroque***. This exquisite line celebrates the grandeur and intricate beauty of the Baroque architectural era, drawing a captivating parallel with the opulence and cultural richness of the historic Silk Road.

*La Seta Baroque* is a sensorial journey through time, marrying the architectural extravagance of Baroque artistry with the sumptuous textures and fluidity of silk. Crafted from premium silks and thoughtfully repurposed deadstock silk-satin, the collection reflects MOLINI LONDON's commitment to sustainability without compromising on luxury. Each piece embodies a dialogue between past and present, opulence and sustainability, resulting in garments that are at once timeless and modern.

The collection features richly textured drapery, sculptural silhouettes, and intricate detailing reminiscent of Baroque ornamentation, all translated into wearable art for the contemporary connoisseur. From evening gowns that shimmer with understated glamour to statement separates echoing historic motifs, *La Seta Baroque* exemplifies MOLINI LONDON's signature blend of sophistication and innovation. The brand has also brought out more black and some floral pieces, a temporary deviation from its signature ivory silk collections.

“Merging the grandeur of the Baroque era with the heritage and romance of the Silk Road felt natural to us,” says [Stuart Tingini](#), Creative Director of MOLINI LONDON. “We wanted to create a collection that honours history while celebrating the artistry of silk in its most luxurious and current sustainable form.”

*La Seta Baroque* is now available for preview and purchase via MOLINI LONDON's website
