AW- '26/27 Collection Sacred Silhouette

The AW26/27 Sacred Silhouette collection was born from a fascination with timeless femininity and the quiet power of presence. Inspired by the romance of historical portraiture, the richness of decorative arts, and the poetry of memory, the collection explores the silhouette as something more than form. It becomes a vessel of identity, emotion, and enduring beauty.

Each garment is conceived as a living composition where texture, craftsmanship, and movement exist in harmony. The collection is built around a carefully curated selection of luxurious materials, including silk jacquard, delicate lace, silk velvet, and soft fur accents. Together they create a tactile language that speaks of refinement, intimacy, and permanence.

Particular attention is given to silk velvet, a fabric long associated with nobility and artisanal excellence. Its natural depth and subtle luminosity allow it to transform with every movement and changing light, revealing layers of colour and texture that cannot be replicated by synthetic alternatives. Rather than demanding attention, silk velvet brings a quiet richness to the collection, enhancing the sculptural quality of the silhouettes while preserving their softness and fluidity.

Jacquard fabrics introduce painterly floral motifs and intricate woven surfaces reminiscent of antique tapestries and treasured interiors. Lace softens the structure with transparency and delicacy, while fur details evoke warmth, protection, and a sense of winter romance. Throughout the collection, handcrafted floral embellishments emerge as recurring symbols, connecting each look through a narrative of beauty, memory, and renewal.

Sacred Silhouette celebrates a woman who embraces both strength and vulnerability. She is elegant without effort, confident without display, and deeply connected to her own sense of self. Her presence is not defined by trends but by character, grace, and authenticity.

The collection moves between structure and softness, between history and modernity, creating silhouettes that feel both familiar and unexpected. Every detail is designed with intention, every material chosen for its ability to evoke emotion and create atmosphere.

For Pippa Todorson, fashion remains a dialogue between craftsmanship and feeling. Not a spectacle, but an expression of identity. Not a fleeting moment, but a lasting impression. Sacred Silhouette invites the wearer into a world where beauty is timeless, where materials carry memory, and where every silhouette becomes a quiet act of self-expression.
