

LONDON FASHION WEEK

19-23 FEBRUARY 2026

Designs a Building That Doesn't Exist

- Fully constructed fictional 3D architecture
- Virtual presentation replacing runway
- Hybrid structural garments
- Available for interviews

INTERLACE: Constructed Cosmos
London Fashion Week AW26

For London Fashion Week AW26, oqLiq developed a fully fictional 3D architectural environment modeled to respond directly to the garments' structural logic.

Rather than selecting a venue, the brand constructed a parallel spatial system where architecture and clothing operate as co-dependent structures.
