PRESS RELEASE

## CAPITULO II, first act LONDON FASHION WEEK x FASHION BRITISH COUNCIL

Saturday 13th of June, at 11:20 am BST (12:20 CET), TISCAR ESPADAS will be launching a new capsule collection called "CAPITULO II / first act" as part of the virtual LONDON FASHION WEEK.

This is a project made in a period where the traditional creation system of a collection was shaken and forced to look for new solutions. Capitulo II shows how boundaries can be bridged through imagination, desire and creativity in the searching for a common illusion.

The collection CAPITULO II, offers fantastic and poetic imagery, a sensory and evocative narrative that comforts, transforms and try to make us freer and even more creative.

When our SPACE - physical, social and freedom - has been limited and restricted to interiority, IMAGINATION is the only possible tool to regain our freedom. To transport ourselves to our true being. To our HOME.

CAPITULO II is full of new shapes and volumes. It focuses on the details and taste for artisan and meticulous work, the technical boasts and resignations, volumes that allow ourselves to deconstruct as individuals to get closer to our own character.

It is also full of reminiscences and Spanish roots that led to new reinterpretations between fascination and irony, between the depth of beauty and the superficiality of appearance, tradition with the most risky contemporaneity, to make an almost impossible mix.

CHAPTER II is a multidisciplinary proposal where, around the idea of a fashion collection - multiple manifestations are generated with different languages to build the necessary and coherent environment for the creation of the designer's imaginary and personal universe. Surrounded by excellent artists / friends / collaborators, she has managed to form a magnificent work team loaded with talent, who accompanies her, in a delocalized way due to the complex circumstances.

The video presented, was made with Spanish videographer Loic Grovety-Vega and dancer Manuel Rodriguez, and was directed through a 16 hour long video call between London and Barcelona. The garments and visuals productions both breathe how boundaries can be crossed in the collective illusion of capitulo II of TISCAR ESPADAS. One can only dream how this continues.

## about

---

TÍSCAR ESPADAS is a Spanish Fashion Designer & Artist based in London. Having founded the studio only recently, in 2019, following her graduation from The Royal College of Art, MA Menswear, awarded with The Burberry Scholarship.

Her final project "CAPITULO 1" ends up becoming her first collection. With it, she was selected as a finalist in the BIG Design Award, Tokyo (Japan). Besides that, her clothes and paintings had been exhibited at different museums and galleries in the UK, Spain, Japan, among others. Her pieces can be found in a select list of stores in various parts of the world.

At Tiscar Espadas studio, clothing is the connecting axis of a much broader and diverse language where collaboration (with other artists, disciplines and artisans) get combined to create a full complete language.

Raw Spanish authenticity, the craftsman eye for detail, and freedom to wear is rippling through every look, characterising Tiscar Espadas design. The brand breathes that fashion crosses the boundaries of clothing and is reflected in every part of our lives and personal universe.

The garments are made from a combination of exploration and technical construction. Incorporating the delicacy of details, care for material and what is accidentally found along the way of making. Each garment is unique, enhancing signs of the complex, hand craftsmanship.
