

THE WINTER HOUSE

SS26

Boy With Thorn

For SS26 The Winter House presents BOY WITH THORN, a collection inspired, in part, by the roman sculpture of the same name. The statue represents a boy, sitting on a rock, intent on removing a thorn from his foot.

This collection imagines the foolhardy boy's exploration of The Winter House's grounds which led to the thorn in his foot. This collection is inspired by the brazen assurance of a child who's not yet been hurt. It draws attention to his vulnerability in a harsh environment and his adventurous spirit charging forward regardless.

Contrasts such as inside versus outside, and softness of skin met by the hardness of the world are themes that run through the collection of precious rings, pendants and jewellery items.
